**FOX VALLEY ADVANCED CARE PLANNING PARTNERSHIP**

The Fox Valley Advanced Care Planning Partnership is a collaboration of ThedaCare, Ascension Fox Valley, Mosaic Family Health and the greater Fox Valley community working to making advance care conversations and planning an integral part of living. What if you had a sudden illness or injury and could not speak for yourself? Who would you want to speak for you? What would you want them to know about your health care wishes? SO...What is advance care planning? Advance Care planning is a process that helps you think about your values and goals, reflect on health care choices you may have to make in the future, select a person who can make choices for you if you cannot make them for yourself and make a written plan for the future. Without the plan care received might now reflect what is the persons wishes, healthcare providers may not know how they want to be cared for, court involvement is likely and will cost a lot of money and that goes back on the family and family of loved ones are left wondering if they made the right decision. FVACPP is a referral resource for you and your family. Their vision: People in the Fox Valley are the authors of their own last chapter of their life. If you have not started planning now make an appointment with an ACP facilitator to start this process. This person will help you have a conversation with your loved ones about what matters the most to you for future medial choices.

For more information contact Ellen Koski at 920-997-8412 or visit their website at [www.FVACPP.org](http://www.FVACPP.org).
