### NATIONAL HEARING LOOP- JULIETTE STERKENS

Fox Valley Hearing Loop, LLC is located in Oshkosh, Wisconsin and is owned by Juliette Sterkens and LeRoy Maxfield. Dr. Juliette Sterkens has practiced as an audiologist in the Fox Valley since 1983. Dr. Sterkens was named the Hearing Loss Association of America (HLAA) Hearing Loop Advocate and she travels around the country to increase awareness about hearing loss, and the need for an increase in the use of hearing loops to improve hearing accessibility. A hearing loop, also known as an Induction or Audio Loop, provides a magnetic, wireless signal that is picked up by the hearing aid when it is set to "T" (Telecoil) setting. The loop systems consists of a microphone to pick up the spoken word; an amplifier which processes the signal which is then sent through the final piece; the induction loop, a wire placed around the perimeter of a room to act as an antenna that radiates the magnetic signal to the hearing aid. The purpose of a hearing loop helps persons who use hearing aids that are equipped with T-coils hear sounds from a PA system directly and clearly in the hearing aids, because it reduces or cuts out background noise. There are several locations that have hearing loop installations in Wisconsin. Here is a list of them in the Appleton area:

All Saints Episcopal Church  
Appleton Public Library  
Audiology & Hearing Services  
Dr. Mike Thelen  
First Congregational Church
