WISCONSIN DOT SECRETARY DAVE ROSS

Dave Ross was appointed by Governor Scott Walker to serve as Secretary of the Wisconsin Department of Transportation (WisDOT) beginning in January 2017. WisDOT is one of the largest state agencies, with about 3,500 employees and an annual budget of more than \$3.5 billion. The department supports all modes of transportation, including state highways, local roads, railroads, public transit systems, airports, and harbors. In addition, the department includes the Division of Motor Vehicles which serves about 50,000 customers each week, and the Division of State Patrol that enforces laws and assists motorists throughout the state. WisDOT supports all forms of transportation. The department is responsible for planning, building and maintaining Wisconsin's network of state highways and Interstate highway system. The department shares the costs of building and operating county and local transportation systems - from highways to public transit and other modes. WisDOT plans, promotes and financially supports statewide air, rail and water transportation. The department works closely with other state, federal and local agencies to meet changing and growing travel needs. Transportation impacts everyone and WisDOT is committed to providing the safest, most efficient and highest quality transportation services to best serve the needs of the state, its citizens and many visitors. They are working on moving more dollars back where we drive and where we live and the Governor would like to finish the BIG projects going on currently. For more information regarding the DOT please visit their website at <http://wisconsindot.gov/Pages/home.aspx>.
